## **Liberty Science Center and the New York Code + Design Academy to Offer Adult Coding Classes Starting August 7**

**Jersey City, NJ – July 27, 2017** – Liberty Science Center is pleased to expand its educational outreach to include evening coding classes for adults. Through a partnership with the New York Code + Design Academy, adult students with little or no prior experience in computer science will be able to hone this increasingly important skill.

“We are proud to partner with NYCDA to expand our offerings and provide this amazing educational opportunity exclusively for adults,” said Paul Hoffman, President and CEO of Liberty Science Center. “Coding is an in-demand, 21<sup>st</sup> century skill with the power to unlock new opportunities for adults just entering the workforce or looking for a mid-career change.”

“We’re honored to partner with Liberty Science Center to expand their program offerings. This partnership furthers our mission to improve the connection between community, technology, and continuing education,” said Jeremy Snepar, CEO and Founder of NYCDA.

The first course, Web Development 100, runs August 7 through November 27 and is designed to introduce beginners to the fundamentals of web development through an integrated curriculum covering HTML, CSS, and Javascript. Students will build rich, dynamic websites in a supportive, community-driven classroom and receive a certificate of completion upon graduation.

Classes are held at Liberty Science Center in Jersey City, New Jersey, on Mondays and Wednesdays from 6:30 p.m. to 9:30 p.m. Advance registration is required. The Center is easily accessible via public transportation using the Liberty State Park stop on the Hudson-Bergen Light Rail.

### **About Liberty Science Center**

Liberty Science Center (LSC.org) is a 300,000-square-foot not-for-profit learning center located in Liberty State Park on the Jersey City bank of the Hudson near the Statue of Liberty. Dedicated to bringing the power, promise, and pure fun of science and technology to people of all ages, Liberty Science Center houses 12 museum exhibition halls, a live animal collection with 110 species, giant aquariums, a 3D theater, the world’s largest IMAX Dome Theater, live simulcast surgeries, a tornado-force wind simulator, K-12 classrooms and labs, and teacher-development programs. More than 250,000 students visit the Science Center each year, and tens of thousands more participate in the Center’s offsite and online programs. LSC is the most visited cultural institution in New Jersey with 650,000 visitors annually and the largest interactive science center in the NYC-NJ metropolitan area.

### **About The New York Code + Design Academy**

The New York Code + Design Academy (NYCDA) is a technology school built on a community of entrepreneurs, passionate developers, and educators. Intensive hands-on training programs in web development and user interface/user experience (UI/UX) design are offered both full-time and part-time at campuses across the United States and in Amsterdam, Holland.
